

PROJECT	Credit Card Approval Prediction	TEAM	AI/ML Program
DOCUMENT	Customer Journey Map	DATE	July 2026

Customer Journey Map

This journey map traces a prospective customer's path through the Credit Card Approval Prediction web application, from landing on the homepage to receiving a result.

Stage	User Action	Experience
Discovery	Opens the CreditCheck home page	Sees a clear project overview and a call-to-action button
Entry	Clicks "Check my eligibility"	Is taken to a structured application form
Input	Fills in personal, financial, and housing details	Form is grouped logically (Personal, Financial, Assets & Housing, Contact)
Submission	Clicks "Predict"	Form data is sent to the Flask backend for processing
Result	Views the result page	Sees an instant "Likely Approved" or "Likely Rejected" outcome
Decision	Uses the result to decide next steps	Can proceed to a formal application or adjust their financial profile

Key Insight

The journey is intentionally short and linear — three screens total (home, form, result) — to minimize friction and give the user an instant, understandable outcome without unnecessary steps.
