

PROJECT	Credit Card Approval Prediction	TEAM	AI/ML Program
DOCUMENT	Functional Features	DATE	July 2026

Functional Features

Feature	Description
Landing Page	Provides a project overview and a call-to-action to begin the eligibility check
Application Form	Collects 15 applicant fields grouped into Personal, Financial, Assets & Housing, and Contact sections
Real-Time Prediction	Backend encodes inputs and returns an Approved/Rejected result instantly
Model Comparison	Four algorithms trained and benchmarked to select the most reliable model
Class Imbalance Handling	class_weight='balanced' used to address the ~88/12 approved/rejected split
Result Page	Clearly displays the prediction outcome with a short explanation
